

Money available to invest in your paths

Hello,

We are inviting community groups who would like to improve their **local community paths** to apply for a *Community Paths Grant*.

We are offering individual grants of **up to £1500** to help community groups improve, maintain and promote their local community paths.

Not only can we offer financial help in the way of a grant but we have a dedicated team to give support and technical help throughout all steps of the process of your project. For **inspiration** take a look at some of the projects previous applicants have been involved with in our [Making Tracks case studies](#).

Find out more details about our grant fund [here](#).

If you are not yet at the stage of applying for a *Community Paths grant*, but want to discuss an idea then please get in touch with our team of experts: communitypaths@pathsforall.org.uk or 01259 218 888.

In addition, we are also offering **training courses** to help you to learn the essential skills to improve maintain and promote your local paths - you can find details of our courses [here](#). Watch out for our new programme of training courses coming soon.

We look forward to working with you on making Scotland a better place for everyday walking.

From the Paths for All Active Environments Team
